Cautionary Note Regarding Forward-Looking Statements

This presentation of Oak View Bankshares, Inc. (the “Company” or “OAKV”) may contain forward-looking statements that are subject to risks and uncertainties. Any statements in this presentation about expectations, beliefs, plans, objectives, assumptions or future events or performance are not historical facts and are forward-looking statements. These statements are often, but not always, made through the use of words or phrases such as “may,” “should,” “could,” “would,” “predict,” “potential,” “believe,” “likely,” “expect,” “anticipate,” “seek,” “estimate,” “intend,” “plan,” “project” and similar expressions. Accordingly, these statements involve estimates, assumptions, and uncertainties, and actual results may differ materially from those expressed in such statements.

The following factors could cause the Company’s actual results to differ materially from those projected in the forward-looking statements made in this presentation: changes in assumptions underlying the establishment of allowances for credit losses, and other estimates; the risks of changes in interest rates on levels, composition and costs of deposits, loan demand, and the values and liquidity of loan collateral, securities, and interest sensitive assets and liabilities; the effects of future economic, business and market conditions; legislative and regulatory changes, including changes in banking, securities, and tax laws and regulations and their application by our regulators; the Company’s ability to maintain adequate liquidity by retaining deposit customers and secondary funding sources, especially if the Company’s or banking industry’s reputation becomes damaged; computer systems and infrastructure may be vulnerable to attacks by hackers or breached due to employee error, malfeasance, or other disruptions despite security measures implemented by the Company; risks inherent in making loans, such as repayment risks and fluctuating collateral values; governmental monetary and fiscal policies; changes in accounting policies, rules and practices; competition with other banks and financial institutions, and companies outside of the banking industry, including companies that have substantially greater access to capital and other resources; demand, development and acceptance of new products and services; problems with technology utilized by the Company; changing trends in customer profiles and behavior; success of acquisitions and operating initiatives, changes in business strategy or development of plans, and management of growth; reliance on senior management, including the ability to attract and retain key personnel; and inadequate design or circumvention of disclosure controls and procedures or internal controls.

The foregoing factors could cause actual results or outcomes to differ materially from those expressed in any forward-looking statements made by the Company, and you should not place undue reliance on any such forward-looking statements. Any forward-looking statement speaks only as of the date on which it is made and the Company does not undertake any obligation to update any forward-looking statement or statements to reflect events or circumstances after the date on which such statement is made or to reflect the occurrence of unanticipated events. New factors emerge from time to time, and it is not possible for the Company to predict which will arise. In addition, the Company cannot assess the impact of each factor on the Company’s business or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those contained in any forward-looking statements.

Non-GAAP Financial Measures

In addition to financial measures presented in accordance with U.S. generally accepted accounting principles (“GAAP”), this presentation contains certain non-GAAP financial measures, including, without limitation, tangible common equity (TCE), tangible assets (TA), and the ratio of tangible common equity to tangible assets (ROATCE). These non-GAAP financial measures are not intended to be considered in isolation and should be considered only as supplemental to, and not as a substitute for or superior to, financial measures prepared in accordance with GAAP. Reconciliations of GAAP to non-GAAP measures are included at the end of this presentation.
